Subject: "Delivery of specialized vehicles"

Location: Suloglu, Edirne

QUESTION:

Regarding ANNEX II + III: TECHNICAL SPECIFICATIONS + TECHNICAL OFFER, LOT 2 "Supply of light dumper truck":

Please specify the required payload of the light dumper truck, so that we can propose a suitable vehicle with corresponding gross weight.

ANSWER:

The load capacity of motorways is limited for the safety of the vehicles and the transported goods. Vehicles of different sizes carrying goods have different tonnage limits. The load capacity of the trucks depends on the number of axles, the dimensions of the vehicle and the type of truck. The dimensions of vehicles such as trucks and vans determine the limits of the loads they can carry. Accordingly, the truck whose technical characteristics are specified in ANNEX II + III: TECHNICAL SPECIFICATIONS + TECHNICAL OFFER, LOT 2 "Supply of light dumper truck" must comply with the Road Traffic Regulation issued in accordance with the Road Traffic Act № 2918.
